Music Selections for these concerts

ABOUT US: The Association of Concert Bands was formed to support adult concert, community, and municipal bands. Members include bands, adult musicians, conductors, composers, and corporations that are dedicated and equipped to serve the needs of musicians who perform in and/or lead adult concert bands.

The Association of Concert Bands has a long tradition of bringing together concert band musicians, conductors and their bands. Most every year, members from across the country have gathered for a convention of three or four days of camaraderie and participating in clinics and concerts. Additionally, ACB has created Regional Connections, events across the country that bring together the concert band community across a region. One or two days in duration, the events provide opportunities for collaboration, education, and performance. Thank you for joining us as part of this ACB Regional Connections Event. A special thank you to the Sequim City Band for being our host for this event!
